

ENG. AHMED MAHBOUB

Enterprise Applications & Development Manager | ERP ·
Automation · AI

Jeddah, Saudi Arabia (open to
Riyadh)

mahboub80@gmail.com

EXECUTIVE PROFILE

Enterprise Applications & Development leader with 20+ years of experience leading enterprise applications, ERP systems, software development, and automation initiatives across multi-entity group structures. Hands-on technology manager who both leads teams and builds solutions personally — from ERP configuration and SQL reporting to SPFx/TypeScript development and AI-enabled automation. Proven record of end-to-end application project delivery on scope, time, and budget; enterprise system integration; application security controls (segregation of duties, access governance); and measurable business outcomes: 25% operational efficiency gain, 30% cost reduction, 3x ROI on technology investments. MBA (GPA 4.92/5) and PhD candidate researching AI adoption in digital transformation. Pioneer in embedding AI and automation into enterprise operations.

CORE COMPETENCIES

- Enterprise Applications Management (ERP)
- Software Development Leadership (SPFx, SQL)
- Automation & AI-Enabled Solutions
- Project Delivery (Scope, Time, Budget, Quality)
- Annual Budget Planning & Cost Control
- Process Improvement & Innovation
- Application Security & Access Controls
- System Integration & Enterprise Architecture
- Business Continuity & Risk Management
- KPIs, Power BI & Management Reporting
- Stakeholder Management & User Satisfaction
- Vendor & Implementation Partner Management

PROFESSIONAL EXPERIENCE

IT Applications Manager

Red Sea Markets Co. Ltd. (Red Sea Mall) | Jeddah, Saudi Arabia *Feb 2019 – Present (7+ Years)*

- ▶ Lead enterprise applications, development, and automation initiatives across a 3-entity group structure — managing the full application landscape (Yardi Voyager ERP, SharePoint, Power BI, Microsoft 365) and its integration.
- ▶ Oversee application projects end-to-end from planning to delivery — including a group-wide mobile application initiative with 4-vendor RFP evaluation and live TCO models — ensuring alignment with scope, timeline, budget, and quality standards.
- ▶ Manage ERP initiatives across support, enhancement, and integration: requirements, vendor coordination, testing, upgrades, releases, and custom SQL-based reporting development.
- ▶ Lead hands-on development activities: SPFx web parts (TypeScript), SQL report development, Word/OOXML template automation, and Power BI DAX — setting development best practices by example.
- ▶ Identify and deliver automation opportunities that improve productivity: transformed paper-based operations to digital workflows (30% cost reduction, 20% productivity gain) and deployed AI-enabled automation for reporting and document generation.
- ▶ Implement and maintain application security controls: designed ERP segregation-of-duties enforcement across AP, GL, Leasing, and Operations modules with role-based access governance.
- ▶ Maintain business continuity standards for enterprise applications — availability monitoring, backup and recovery coordination, and regular reporting on continuity activities.
- ▶ Ensure alignment with enterprise architecture standards across IT applications — integration patterns, authentication architecture (Azure AD Service Principal), and platform consolidation.
- ▶ Develop departmental KPIs and executive dashboards (Power BI); prepare and manage the annual applications budget, achieving 15% reduction in budget variances.

- ▶ Build strong relationships with internal stakeholders across all departments, leading user adoption and training for every rollout with consistently high user satisfaction.
- ▶ Delivered full ZATCA e-invoicing compliance — regulatory-grade project delivery across vendors, systems, and business users.

Quality Assurance & Development Manager – System Manager

Intimaa Real Estate Services | Jeddah

Nov 2015 – Jan 2019

- ▶ Managed ERP planning, implementation, and support — coordinating business requirements and vendor deliverables, improving operational execution by 20%.
- ▶ Led automation initiatives including customer communication workflows and chatbots, reducing response times by 35%.
- ▶ Established company-wide KPIs and reporting frameworks; achieved ISO 9001:2015 certification through end-to-end process governance.

Marketing Manager

Intimaa Real Estate Services | Jeddah

Jan 2013 – Nov 2015

- ▶ Coordinated cross-functional initiatives between marketing, operations, and external agencies; increased customer footfall by 20%.

Marketing Brand Manager

Kimberly-Clark (FMCG) | Al Khobar

Apr 2010 – Jan 2013

- ▶ Led business planning and budgeting achieving 45% sales growth across Saudi Arabia and the GCC.

Assistant Brand Manager

Procter & Gamble | Jeddah

Apr 2005 – Jun 2009

- ▶ Executed global brand planning disciplines within the Saudi market at a premier multinational.

EDUCATION

- ▶ PhD Candidate — Management (Research: AI adoption & digital transformation effectiveness) | Midocean University, UAE
- ▶ MBA — GPA: 4.92/5.0 | Jeddah International College
- ▶ B.Sc. Industrial Engineering | King Abdulaziz University

KEY ACHIEVEMENTS

- ▶ Designed and enforced ERP application security: segregation-of-duties matrix across finance, leasing, and operations modules — audit-ready access governance.
- ▶ Pioneered Power BI embedded in SharePoint via Azure AD Service Principal — enterprise architecture solution eliminating per-user license costs group-wide.
- ▶ Led 4-vendor mobile application RFP with live TCO models — identifying a solution at under 10% of the highest bid's 3-year cost.
- ▶ Full ZATCA e-invoicing regulatory delivery across a multi-entity group.
- ▶ Self-directed mastery of enterprise platforms (ERP, Power BI, SPFx, SQL, AI tooling) — proven rapid-learning and hands-on technical depth.
- ▶ 3x Saudi Excellence in Tourism Awards | 2x Pan Arab Web Academy | 2x MECSC | 25+ industry awards.
